RE: Bis-phenol-A in Eastman Tritan™ Copolyester

Bis-phenol-A is not intentionally added to Eastman Tritan™ Copolyester.

Please note that we have not specifically analyzed Eastman Tritan™ Copolyester for the presence of this chemical. However, based on our current knowledge of the raw materials and processes we use in the manufacture of Eastman Tritan™ Copolyester, we have no reason to expect that this substance would be present at any appreciable level.

It is the responsibility of our customers to determine that their use of our product(s) is safe, lawful, and technically suitable in their intended applications. Because of possible changes in the law and in regulations, as well as possible changes in our products, we cannot guarantee that the status of this product will remain unchanged. We, therefore, recommend that customers continuing to use this product verify its status no less frequently than two years from this date.

We appreciate your continued interest in Eastman Chemical Company's products.

If you have any further questions about this, please call us at 1-800-EASTMAN.

Sincerely,

*Kinshuk Bharati*
